For Immediate Release

Webb Wheel Aftermarket Releases New Webb Vortex[®] Unlimited Brake Drum Featuring Cool Running Technology (CRT)

Cullman, AL (April 4) Webb Wheel Aftermarket has released a new Webb Vortex[®] Unlimited brake drum featuring patent-pending CRT vents (Cool Running Technology) that increase air flow producing 15% cooler operating temperatures for better braking performance and adding 25% to brake drum life.

The Webb Vortex[®] Unlimited patented design features external cooling ribs that conduct heat away from brakes; and now with CRT vents for superior heat transfer efficiency, they are the ultimate low-temperature, long-life brake drums for commercial vehicles. Webb Vortex[®] Unlimited brake drums also include patent-pending wear indicators that further reduce costs by taking the guess work out of repairs, saving labor time and money, and maximizing brake drum life.

Manufactured in the U.S., Webb Vortex[®] Unlimited drums featuring CRT vents, are available for most popular axle applications. Visit www.webbwheel.com to learn more.
