NEWS ANNOUNCEMENT

For Immediate Release

Webb Transit Introduces Super Kits

Cullman, AL (May 26, 2010) - Webb Transit introduces Super Kits – an innovative, superior performing brake drum, friction, and hardware package to the transit and coach markets. Super Kits consist of two (2) Webb OEM quality brake drums, four (4) new brake shoes lined with Webb W43 FMVSS121 certified friction, and two (2) OEM grade hardware kits. Super Kits are packaged in axle kits and are ready to use.

Super Kits provide value for maintenance, operations, and management by:

- eliminating additional machining
- increasing safety and stopping power
- reducing or even eliminating brake noise
- providing excellent durability
- reducing driver complaints and comebacks to the shop
- eliminating procurement of individual foundation brake parts
- eliminating brake shoe processing
- substantially reducing labor and overall brake maintenance costs through increased efficiencies.

Webb Transit is confident in the performance of their Super Kits, and offers a guarantee of maximum performance, durability, and safety when used in accordance with Webb's guidance. Working together with end users, Webb Transit will put together a program that will greatly benefit the end user's organization and greatly reduce brake maintenance costs. Drawing on years of expertise and extensive research and development, Webb Transit has assembled a precision fit, ready to install, solution.

Webb Wheel Products, Inc., headquartered in Cullman, Alabama, manufactures hubs, brake drums and rotors for medium- and heavy- duty trucks, trailers and buses. Webb Wheel is a Marmon Highway Technologies®/Berkshire Hathaway company. Marmon Highway Technologies (MHT) supports the highway transportation industry worldwide with a wide range of high-quality products and services.
