**SERVICE BULLETIN (No. 21)**  
**(NOTICE OF INTERCHANGE CLARIFICATION)**

**WEBB BRAKE DRUMS 64404 and 64405**

Our current Brake Drum Catalog TB889BD reflects an interchange from Chevrolet/GMC part number 3990046 to Webb 64405 (page 33 of catalog) which is a 6 hole brake drum.

While this interchange is correct with the latest information available, we have been advised that there are occasions when the casting used to manufacture the Chevrolet/GMC 3990046 is used to manufacture a 10 hole brake drum equivalent to Webb 64404. The casting number is apparently not being changed when this is done.

The purpose of this bulletin is to advise caution when interchanging Chevrolet/GMC 3990046. If you find this number to be a 6 hole drum, use Webb 64405. If found to be a 10 hole drum, use 64404.

Please adjust your copy of the above catalog to reflect this change.
