SERVICE BULLETIN (No. 23)

(NOTICE OF PRODUCT CHANGE)

WEBB BRAKE DRUMS

62997 and 62998

The following changes are being made to our 62997 and 62998 Brake Drums.

62997 Bolt holes are being changed from 5 holes drilled .78 to 5 and 6 holes drilled .78.

62998 Effective with shipment of July 6, 1992, being obsoleted with existing inventory.

The 62997 will replace the 62998 in all applications and interchanges. The 62997 will, in addition, now interchange with Dayton 122430 double drilled drum and possible Gunitite 2997D. There is no back up information available on the Gunitite 2997D interchange.

Please update your records to show the above.
