## **SERVICE BULLETIN NO. 41**

### **HUB AND SPOKE WHEEL SERVICE ASSEMBLIES WITH ABS RINGS**

We can now furnish Service Assemblies (assemblies less brake drums) with ABS Rings attached by use of a cardboard protector.

The cardboard protector fits over the ABS Rings eliminating the possibility of the ring being damaged during shipment.

Service assemblies with ABS Rings can be ordered by placing the letter "T" after the parts code of the Webb Part Number.

Example: 10209 -- MT R or L

20231 -- 3T

73209 -- AT
