## **SERVICE BULLETIN NO. 49**

### **66864 and 66884 Interchanges**

The purpose of this bulletin is to update interchanges from Gunitite and Dayton brake drums to Webb 66864 and 66884 brake drums, as shown in our current Brake Drum Catalog TB696BD.

The updated interchanges are as follows:

<b>Dayton –</b>	<b>Use Webb</b>	<b>Gunitite –</b>	<b>Use Webb</b>
03-123022	66864F	3401	66864F
03-123207	66864F	3570A	66864F
13-123207	66864B	3570X	No interchange.
13-123363	66884B	3570AX	66864B
03-123365	66884F	3600	No interchange.
		3600A	66864F
03-123404	66864F	3600AX	66864B
(Centrifuse)		3600B	66864F
13-123404	66864B	3668	66864F
(Centrifuse)		3576	66884F

Webb Drums: F suffix = Finished Drum (Unbalanced) B suffix = Balanced Drum

If necessary, because of availability in your inventory, you can substitute Webb **66864F** or **B** for **66884F** or **B** and **66884F** or **B** for **66864F** or **B**. However, if replacing Gunitite's 3576, it is recommended that you use 66884F only as this is a heavy duty (severe duty) application. Webb 66884 is a heavy duty version of Webb 66864.

The above interchanges will be updated in the next printing of our Brake Drum Catalog.

If you have any questions regarding the above, please contact our Sales or Engineering Department.
