SERVICE BULLETIN #54

**7315 • 7000 • 7015
3 Spoke 15" Spoke Wheels**

The purpose of this bulletin is to explain changes that are taking place on the above parts as a result of the release of our new 7015 (3 Spoke 15 inch Spoke Wheel). A copy of our New Product Bulletin #285 covering the 7015 is attached.

The changes are as follows:

1. **7315** - This spoke wheel will become obsolete when inventory is depleted. It has been available as a "Service Assembly Only" for many years. It will be replaced by the new 7015 Service Assembly. The same brake drum used with the 7315 can be used with the 7015.
2. **7000** - This spoke wheel will become available as a "Service Assembly Only." For new production, you should specify the 7015 spoke wheel.
3. **7015** - The release of this new spoke wheel gives us the capability of furnishing a spoke wheel for ABS applications using an ABS Ring. This spoke wheel is similar in design and will use the same brake drums as previously used on our 7315 Spoke Wheel.

We hope this bulletin is sufficient explanation of these changes. Should you have any questions, please feel free to contact our Sales or Engineering Departments.
