## SERVICE BULLETIN # 55 (Notice of Obsolescence) 1020 Hub

**\*CORRECTION\***  
**January 1, 1999**

As lead times are of prime importance in today's marketplace, this service bulletin is to serve as preliminary notification of a pending change in the availability of our **1020** hub.

→ **Effective January 1, 1998**, our **1020** hub will no longer be available for production use. It will be replaced by our **2023** hub in the ball-seat mount configuration. This change is made to increase efficiency and standardize our product line.

Because of the volume of the **1020** hub furnished over time it will continue to be carried in our product line as a "Service Replacement Only" as will the brake drums used with it.

Listed below are assemblies currently available of the **1020** hub and the respective **2023** replacement assembly. Wheel studs and brake drums are not interchangeable.

ABS position on the 1020 and 2023 are identical.

**1020** Hub for Ball Seat Mount Applications.  
 ABS Applications - Uses Tone Ring

**2023** Part Numbers for Ball Seat Mount Applications.  
 Also Available for Hub Piloted Applications  
 ABS Applications - Uses Tone Rings or Direct-Machined
