SERVICE BULLETIN # 70

FLANGE NUT CHANGE

The purpose of this bulletin is twofold. The first is to rescind our Service Bulletin # 66 which announced that the 179955 flange nut used on our 8 stud hubs was to be replaced by the 179933 flange nut. **The 179955 flange nut will continue to be available.**

Secondly, this bulletin announces that we will be replacing the 179933 flange nut with our 179935 flange nut. This change will reduce our inventory of different flange nuts and enable us to standardize to the flange nuts most commonly used in the industry.

Webb Part Number	Thread Size	A Hex Size	B Height
179933	M22 x 1.5	1.30	1.06
179935	M22 x 1.5	1.30	1.22
179955	M22 x 1.5	1.50	1.37

If you have any questions regarding this change, please contact us at the address and phone number shown in this bulletin or at sales@webbwheel.com.
