## Change to Pallet Program (Aftermarket Accounts Only)

In an effort to better accommodate our customers, effective July 1, 2007 Webb is changing the pallet part number ordering procedure.

*Current ordering method:*

(1) 66864F20 = (20) 66864F

(1) 20231--3T40 = (40) 20231--3T

*Effective 7/1/07 new ordering method:*

(20) 66864F20 = (20) 66864F

(40) 20231--3T40 = (40) 20231--3T

To receive the pallet pricing, you must order the products using the correct part number and quantity. We hope this change will make ordering of the pallet products easier and more convenient for our customers. Below is a list of products effected by this change.
