

# ELEVATE YOUR WHEEL-END SOLUTIONS

## Innovative Wheel-End Solutions that Give a Competitive Edge!

### WHEEL HUBS

### CALIPERS

### BRAKE DRUMS

### ROTORS

### BRAKE PADS

- Standard, Pre-Adjusted, & Spoke Wheels Available
- Medium-Duty and Heavy-Duty applications
- Webb's pre-adjusted "UltraSet" hubs offer pre-installed components for *faster, easier installation*
- Ultrasets hubs only require a simple torque-down procedure with no bearing adjustment needed, reducing downtime

- **New**, No Core Charges
- Product offerings include **OTR, Severe Duty, Vocational, & Transit** applications
- Designed and Engineered for **superior performance** - built to handle the toughest applications
- Robust housing and optimized adjuster mechanism enhances durability and reliability
- Select models with **Enviroshield Technology** for improved sealing over OEM calipers, reducing the chance for water & debris intrusion

- *Lightweight to Severe-Service* drum options
- **56864B** industry standard drums with patented **CRT vents** run **10% cooler** and **last 10% longer** than standard drums
- Vortex CRT drums deliver **25% longer life & run 15% cooler**, extending the lifespan of surrounding components. Equipped with a **patented wear indicator**, they eliminate guesswork in maintenance, helping reduce repair time and cost
- Webb's *Steel Shell* drums offer **15% weight savings** over standard drums and are ideal for weight sensitive applications. OEM approved for maximum durability without sacrificing safety

- Extensive line of Last Mile, Medium-Duty, & Heavy-Duty rotors
- **High strength** material provides superior wear and smooth stopping characteristics
- Rotors available with Webb's advanced *heat treatment process* - "**LifeShield**" - improve wear and corrosion resistance over standard rotors
- Fleets using **LifeShield** rotors report up to **2X longer life cycle** over traditional rotors
- Webb's **56094PK** is the industry's most popular OTR rotor. The patented design provides up to **70% faster installation** time over OEM's design

- Air Disc & Hydraulic Brake Pad Offerings
- Plus, Premium, & Severe-Duty pads designed for the most demanding applications
- Premium performance characteristics for wear, stopping, and rotor friendliness
- "N" Level Copper Free
- Fleet Testing shows Webb pads last up to **2X longer** than the competition

**4 USA  
MANUFACTURING FACILITIES**

**750,000 SQ FT**

**4 MILLION+  
PRODUCTS SHIPPED ANNUALLY**

**OEM & AFTERMARKET**
